2.6 Standing alone

"Standing alone" is the condition of being unaccompanied by additional letters, symbols or punctuation except as specified below. Whether a sequence is "standing alone" or not "standing alone" determines the meaning of braille signs when they are read or written.

2.6.1 A letter or letters-sequence is considered to be "standing alone" if it is preceded and followed by a space, a hyphen or a dash. The dash may be of any length, i.e. the dash or the long dash.

- opening parenthesis (round bracket), opening square bracket or opening curly bracket (brace bracket)

- opening quotation mark of any kind

- nondirectional quotation mark of any kind

- apostrophe [also see Section 2.6.4]

- opening typeform indicator of any kind

(b)   A word with an interior capitals indicator or capitals terminator which meets the specific provisions of 10.9.4.

(c)   A word with an interior indicator or terminator which has been specifically added to the Shortforms List, Appendix 1 in that format.
